

Apostrophe Games Poker Size Sticker Sheet Templates

The templates below are formatted to print on Apostrophe Games Poker Size Sticker Sheets (8.5" x 11", 216mm x 280mm). Please note that all home printers operate a little differently and you may need to adjust your margins to get your print to align perfectly. We recommend printing your design onto regular printer paper first and check that print against a sticker sheet to see how it lines up.

The template below, on page 2, is formatted to leave a small amount of room around the border of each sticker. This is best suited for the front of your cards where you may be printing text. If you want to print all the way to the edge of your stickers, use the template on page 3 of this document. That is best suited for designs/artwork on the backs of your cards.
